HUGO MIJARES, MIAMI, FL  
Studio Hugo Mijares is an award-winning and ideas-focused design practice established by Hugo Mijares in Miami in late 2008. In the same year the practice was selected by the American Institute of Architects for the ‘Emerging Young Architects’ Houses Tour and it has been widely published, both locally and internationally. The practice distills a holistic detail design and process-led approach in the delivery of highly creative and pragmatic solutions that resonate conceptual rigor and material invention.

DAVID POORMAN, NAPLES, FL  
David Poorman's childhood was a blend of farm and beach, having moved at an early age from Ohio to Naples, Florida. After enrolling in the architecture program at St. Petersburg Junior College, he went on to receive a Bachelor of Design from the University of Florida and a Master’s in Architecture from Princeton University. He lived for ten years in downtown Chicago, working and travelling for Perkins and Will and then for David Woodhouse Architects. In 2010, David established David Poorman Architect LLC (DPA) in Naples, an award-winning firm specializing in small-scale residential and commercial projects inspired and informed by Florida’s natural resources and climate. BRUCE SPARANO, NEW YORK CITY, NY  
Bruce Sparano is a licensed architect in the United States. He practices residential, municipal and commercial architecture, in addition to real estate consultation and development. Bruce is a member of the American Institute of Architects, the National Council of Architectural Registration Boards, the United States Green Building Council, the Preservation League of New York State, and the Saratoga Springs Preservation Foundation.

VILLA AZURA  
PERRONE CONSTRUCTION  
Villa Azure defies convention and takes you on a journey through the owners’ imaginations. Gracing 230 feet of uninterrupted coastline overlooking Sarasota Bay, Azure presents itself boldly with an eclectic coastal modern aesthetic. Evoking a clean, crisp feel that is warmed by the use of natural materials on the ceilings, soffits and louvres, Azure rests upon a recessed coral-stone stem wall that gives the home a weightless feel. Designed entirely by the owners, this truly bespoke home maintains a constant flow of experiences for the senses. Enter the foyer through double 12-foot backlit onyx cabinets, dine next to a fish tank of glowing glass sea creatures, warm under the sunlight filtering through to the interior planter, become spellbound by the Gucci wallpaper or step outside the master bath directly into the three-level infinity-edge pool. Boldly balanced, the home itself is an incredible collection of furniture and art, much of which was specially commissioned for the home.
